All your emails, calendars and contact information synchronized across all your devices with Hosted eMail Service

### EASE OF USE

- Share email, calendars, and public folders using Mac and Windows desktop applications in the same environment.
- Access full features with Internet Explorer, Safari, Google Chrome, and Firefox.
- Provide an easy way to access and view contact information for everyone in the corporate directory from many groupware clients.
- Direct connection between phone and server to avoid third party network downtime and security leakage.

### EASE OF ADMINISTRATION

- Ideal for organizations with limited or no IT resources.
- Install all components in minutes with one installer.
- Secure remote administration from any browser via the full featured Web Administration interface.
- Self-contained services - no dependencies on other services such as SMTP, POP, IMAP, LDAP, and HTTP.
- Easily set up and manage email, contacts, calendars, etc. for multiple domains.

### ADVANCED PROTECTION

- Spam Repellent blocks up to 80% of spam before it even reaches the server.
- Integrated Sophos anti-virus simplifies deployment and optimizes performance.
- Filter viruses, worms, Trojans, and spyware from incoming, outgoing, and relayed emails.
- Avoid downtime with built-in automatic backup and archiving.

### FLEXIBLE DEPLOYMENT

- Deploy Kerio Connect on the platform and operating system of your choice – Windows, Mac, Linux .
- Versatile user authentication – integrates with Active Directory, Open Directory, or the built-in Kerio user directory.
- Manage a single email domain across different geographic locations

Use the mobile device of your choice.

Get mobile email for the iPhone, iPad, Android, BlackBerry, and more - delivered to you by Kerio Connect through Exchange ActiveSync, IMAP, CalDAV and CardDAV, or BlackBerry Enterprise Server,
